

## October 24 Questions

- 1) Jesus gave sight to a man who had been blind from birth (John's \_\_\_\_\_ sign). This story teaches us several important lessons: 1) While all physical defects can be traced back to the \_\_\_\_\_, not every infirmity is the direct result of an individual's sin. The disciples' question about the man's guilt revealed their thinking to be as wrong as Job's \_\_\_\_\_ (Job 4:7–8). 2) God delights to heal the damage caused by sin, but not every infirmity is meant to display His power. Some ailments are \_\_\_\_\_ and recurring (1 Tim 5:23), while others are for God's \_\_\_\_\_ (John 9:3). 3) Jesus put clay on the man's eyes, but his sight was not restored until he \_\_\_\_\_ to the pool and \_\_\_\_\_. True faith always demonstrates itself by \_\_\_\_\_ to what God commands (James 2:22). 4) Jesus deliberately " \_\_\_\_\_ " on the Sabbath (He made clay) in order to restore the man's sight. He did this to expose the spiritual \_\_\_\_\_ of the Pharisees, who refused to believe in him as the Messiah (John 9:22). There are none so blind as those who will not \_\_\_\_\_. 5) The Pharisees threw the man out of the \_\_\_\_\_, but the One who was greater than the synagogue welcomed him in. Those who are seeking the truth will find to their delight that the \_\_\_\_\_ is seeking them!
